

COILER

- Push-rod 'Cobra'
- Available as 80 metre length (7.4mm dia) rod
- Available as 120 metre length (9mm dia) rod
- Lightweight galvanised trolley
- Tough wheels for manouverability

Specifically designed for CCTV systems, these Cobras are loaded with push rod which has internal wires for camera circuits. Made from GRP fibreglass, breaking strains exceed 40kN.

The addition of 'slip-ring' technology keeps power and video signals permanently connected while the axle revolves through 360 degrees. A pluggable connection is provided using a latching 4-way connector.

The trolley frame is made from rugged galvanised metal tubing and features two specially designed wheels which have exceptional durability.

Supplied with a sprung connection assembly for cameras, this Coiler is tried and trusted by professionals around the world.
