

# ToughDISPLAY(TM)

- Lightweight and easy to carry
- Daylight optimised TFT display with filtering
- Rechargeable battery supply option (RPS02)
- SD card recording option with user text overlay
- Accessory storage compartment

Our ToughDISPLAY(TM) is a lightweight and compact supply display system incorporating the latest flat-panel LCD screen technology.

Upgraded LED backlighting, transfective technology, plus extra glass filtering makes this monitor ideal for use outside in daylight. Durable and rugged, it's designed to survive the rigours of daily use.

The ToughDISPLAY-Plus(TM) has an SD card recording option fitted, plus a text overlay generator, so that footage can be saved with user text. A QWERTY keyboard is supplied.

The display is supplied with an AC Adaptor which enables 110V or 240V operation, and option 12V vehicle supply accessory leads or battery power sources are available.

Video system	CVBS (PAL)
TFT LCD Screen	10.4 inch (modified extra brightness)
Operating voltage	12V DC (18 Watts nominal)
Size	46cm(L) 18cm(W) 36cm(D)
