

MAXI CAMERA

- Sharp detailed image
- Hyper-bright LED illumination
- Made using high grade materials
- 12 months limited warranty
- Fits accredited Live Gas Insertion System

Our latest Maxi camera is our best yet, with aerospace grade aluminium, and a toughened sapphire glass, its built to withstand the rigours of daily pipe surveying.

Automatic levelling of the image is achieved thanks to a 360 degree counterbalanced image sensor assembly. This ensures that the picture is always in the correct orientation, no matter which way the camera rolls along the pipe - making the location and position of internal facet immediately identifiable.

LED illumination is optimised by new circuitry which also increases the life of each LED light source. This, together with the latest clear definition CMOS image sensor, means the MAXI V4 ideal for professional use.

Video system	CVBS (PAL)
Resultion	510 x 492 pixels (480 TV lines)
Lights	Osram™ DURIS™ 2700K Chip LED
Size	2 inch 76mm (L) 48mm (Dia)
Weight	210g
