

MINI CAMERA

- Sharp detailed image
- Hyper-bright LED illumination
- Made using high grade materials
- 12 months limited warranty
- Fits accredited Live Gas Insertion System

Our new Mini camera is built for reliability and superior performance.

It uses the very latest SMT LED technology for high brightness illumination within the pipe and micro image sensor circuitry which gives impressive definition. These, together with carefully specified lens technology and close focussing, ensure a detailed view of the inside of small pipes.

Made from durable stainless steel, our Mini camera can withstand the rigours of daily pipe surveys and the easy to clean toughened sapphire glass minimises scratches through wear.

Video system	CVBS (PAL)
Resolution	510 x 492 pixels (480 TV lines)
Lights	Osram™ DURIS™ 2700K Chip LED
Size	66mm (L) 30mm (Dia)
